“Forward facing solution focused event which gets you thinking not just about the art of the possible but what is coming down the line imminently and in the medium term which will fundamentally change the animal health industry for the better. Exciting times ahead from a diagnostic, treatment and animal care perspective. Felt like a very collaborative space.”

Catriona Curtis, Group Sustainability and Social Value Manager, Pets at Home

“Well-organised with high quality attendees and some excellent speakers”

John Wisbey, Co-Founder and CEO, Chordata

We were joined by over 600 attendees from Animal Health, Nutrition and Technology industries including:

The 6th Animal Health, Nutrition and Technology Innovation USA is the must-attend networking event in North America for innovators with new solutions to support the detection, prevention or treatment of diseases in animals. Our mission is to showcase the most exciting investment opportunities in the sector and connect those businesses with financial investors and strategic corporate partners.

We strive to engage all key participants in the value chain so we can address the full scope of how animal health impacts pet owners, veterinarians, and farmers today.

We would be delighted for you to join us as we address the challenges and opportunities for innovation in our ever-evolving industry.
