

# THE GLOBAL INNOVATION SERIES

## The Core Portfolio

### ANIMAL HEALTH INNOVATION Latin America

#### International Business Development & Partnering

2020 will be the 4th anniversary of our forum in Latin America, one of the most important regions globally for animal health and nutrition. We will bring our international network together online with local players and distributors to explore the licensing of new technologies to meet global challenges.

### ANIMAL HEALTH INVESTMENT USA

#### HUMAN AND ANIMAL HEALTH BUSINESS PARTNERING

Our second largest meeting is our US conference which leverages the unique investor and research community based in the city of Boston. Here we explore the commonalities between human and animal health and explore new business opportunities on both sides.

### ANIMAL HEALTH INNOVATION ASIA

#### Business Partnerships, Product Regulation and Market Access in Asia-Pacific

Tokyo, Japan will once again play host to our forum in Asia after an extremely successful meeting in 2019. Now in its 5th year, the conference will focus on the market trends and dynamics across Asia-Pacific and will connect international players looking to meet new potential partners and access new markets.

### ANIMAL HEALTH INVESTMENT Europe

#### Shaping the Future of Animal Health

2021 will be the 6th year of our flagship conference, hosting 550 delegates and 200 start-up companies. The objective of the European forum is to bring together a global network of innovators who are actively seeking financial investment or strategic partnerships in animal health. If you attend one event in the year, this is the one.

Speak to our team to discuss partnering with the events that best align to your goals.
