ENTERPRISE DENTAL CONNECT

DSO DIRECTORY

An insight into the DSO leaders joining us at Enterprise Dental Connect – from emerging groups to the largest operators in North America.

November Edition

ENTERPRISE DENTAL CONNECT

Welcome to Enterprise Dental Connect

Enterprise Dental Connect returns in 2027 as we continue to shape what's next for DSOs.

Growing a group is hard: margins are under pressure, technology is moving faster than most can implement, workforce shortages persist, and capital is more selective. The event brings together the people solving those problems, with DSO executives sharing what's working, what hasn't, and what they'd do differently.

Enterprise Dental Connect 2027 takes place on 20-21 April at Pier Sixty-Six, Fort Lauderdale, and the DSOs in this directory are already confirmed to be in the room.

The DSO Directory outlines DSOs and emerging dental groups that have committed to attend, so you can see who you'll be meeting before you arrive. Whether you're a solution provider planning your conversations, an investor looking for the next opportunity, or a DSO leader looking to connect with peers, use it to identify the groups most relevant to you and make the most of your time at the event.

With 200+ DSO leaders and 85% of attendees at C-suite level, these are the decision-makers responsible for growth, operations, finance, technology, marketing, people and clinical strategy.

The directory is updated as new groups confirm, so check back regularly.

JUMBO DSOS

The largest dental support organizations in North America, each operating a national network of practices.

Dental Care Alliance

Dental Care Alliance (DCA) is a leading dental support organization (DSO) that partners with over 400 dental practices and 900 dentists across 24 states to advance the practice of dentistry. Founded in 1991 and based in Sarasota, FL, DCA provides non-clinical business support, allowing affiliated dental providers to focus on patient care. Their support includes services like human resources, IT, and analytics, and they support a wide range of dental specialties under more than 150 brand names.

Guardian Dentistry Partners

Guardian Dentistry Partners (GDP) is a dental partnership organization (DPO), founded in 2018 by a group of dentists and a family office. Rather than a typical DSO model, GDP emphasizes a partnership approach, allowing dentists to maintain their practice culture and professional focus while receiving comprehensive support services. These services cover critical administrative areas such as human resources, finance, marketing, and IT, designed to help partners and their teams build their ideal practices.

Heartland Dental

Heartland Dental is the largest dental support organization (DSO) in the U.S., which provides a wide range of non-clinical administrative and business support services to supported dental practices. Founded by Dr. Rick Workman in 1997 with a single dental practice, it has since grown to support over 2,800 doctors in more than 1,700 locations across 39 states and the District of Columbia.

PDS Health

PDS Health refers to Pacific Dental Services (PDS), a leading dental service organization (DSO) in the United States. The company provides business and administrative support services to a network of branded dental practices, allowing licensed dentists to focus primarily on patient care. PDS also operates PDS Health Technologies, which focuses on integrating dental and medical care through unified, cloud-based systems.

U.S. Oral Surgery Management

U.S. Oral Surgery Management (USOSM) is a specialty management services company, similar to a dental service organization (DSO), that partners with oral and maxillofacial surgeons to provide operational, administrative, and marketing support, allowing surgeons to focus on patient care. Founded in 2017, USOSM's goal is to help partner practices thrive by handling business-side tasks, preserving the surgeon's clinical autonomy and vision, and reinvesting resources for growth. This allows surgeons to maintain their clinical authority while benefiting from the company's support to improve operational efficiency, mitigate risks, and achieve better financial performance.

LARGE DSOS

Established multi-state groups supporting around 100 or more practice locations.

42 North Dental

42 North Dental was founded by dentists with the idea that better patient care is achieved by allowing dentists to fully focus on dentistry rather than the administrative burdens of running a practice. 42 North Dental has a 40+ year history in the dental industry under the name Gentle Dental Partners. The idea was simple; doctors who spend more time chair-side treating patients and less time on business and administrative tasks are happier, more successful, and able to produce better outcomes for patients. Forty years ago this idea was revolutionary. Today 42 North Dental carries on those fundamental principles.
